

**Memorial Weekend Presentations during
*Warblers on the Water***

Free, appropriate for all ages, and open to the public

Three engaging presentations are being offered by professors of biology with decades of field work and research on Beaver Island.

All presentations are held at the Community Center.

Masks and physical distancing are required. State restrictions on the number of occupants will be followed in the auditorium.

Saturday, May 29th at 4 p.m., Dr. Nancy Seefelt will share:

Avian Migration - Amazing Journeys!

Sunday, May 30th at 1:30 p.m., Dr. Beth Leuck will present:

Monarchs, Milkweeds, Mimicry, and Migration:

*The Story of Co-evolution, an Endangered Biological Phenomenon,
and the Decline of a Charismatic Butterfly.*

Sunday, May 30th at 3:00 p.m., Dr. Ed Leuck discusses:

Orchids and Bog Plants of Beaver Island.

Please join us.
